

"ISLG is your one-stop resource for international investment law research. No other database provides the researcher with so many effective and efficient ways to research and access treaties, rules of arbitration, decisions and awards, and other related documents."

– MARCI HOFFMAN,
Associate Law Library Director
& Lecturer in Residence,
Berkeley Law

About us

Investor-State LawGuide (ISLG) was born of the need to provide legal researchers with accurate, comprehensive information quickly and at a reasonable cost. Built on the Tologix software platform, ISLG efficiently captures and disseminates subject matter expertise to users, with the goal of streamlining the cumbersome legal research process.

Today, ISLG is powered by a dedicated team of subject matter experts who maintain and contribute value-added material to its research tools. It is currently used by the world's leading law firms, governments, academic institutions and international organizations.

To see how ISLG's research tools can streamline your investment treaty law research, watch our video at investorstatelawguide.com

Your legal research, made easy

"The best online resource
for investment treaty law."

– JUDITH GILL QC,
Partner, Allen & Overy LLP

A powerful combination of people and technology

Investor-State LawGuide (ISLG) significantly reduces the time it takes to conduct comprehensive research for investment treaty law.

ISLG's combination of powerful software and subject matter expertise allows users to obtain fast, accurate results. Our intuitive research product contains all materials relevant to publicly available investment treaty cases.

Pinpoint relevant information quickly with a suite of advanced research tools

Map relationships between relevant materials and past decisions by tribunals

Review extensive content analysis conducted by subject matter experts

ISLG's six principal research tools facilitate accurate, efficient investment treaty law research.

1. Subject Navigator: Research complex subjects by isolating relevant issues in the Subject Navigator. With an intuitive interface and supplementary research tools, this vast electronic directory lays out investment treaty arbitral law in ever increasing detail. Drill down to the detail of each issue and sub-issue, before arriving at the specific passage or footnote that is pertinent to your research.

2. Article Citator: Learn how specific legal instruments have been interpreted or applied by tribunals in just a few clicks with the Article Citator. Sort results according to your needs, such as most recently or most commonly cited provisions, and jump directly to relevant paragraphs and footnotes.

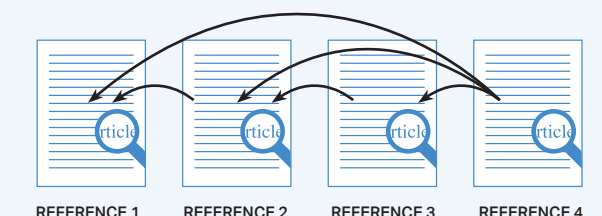

3. Jurisprudence Citator: Use the Jurisprudence Citator to quickly see how both investment and non-investment treaty decisions have been considered by subsequent tribunals. With two different tools you can locate cases where decisions are referred to generally as well as cases where specific paragraphs, footnotes or pages are referred to in isolation.

4. Publication Citator: Track how trusted secondary sources have been used in the past with our unique Publication Citator tool. Gain insight into how authoritative materials have been utilized and considered by tribunals.

5. Terms & Phrases: Eliminate uncertainty with our Terms & Phrases tool which shows you exactly how language has been defined in the context of previous investment arbitration tribunals. This tool is integrated with other research tools available, allowing you to easily source definitions throughout the product.

6. Full Text Search: Tailor your search across our document collection with the robust filters available in the Full Text Search. Filter results by specific types of decisions, by country, by applicable treaty or arbitration rules, or by decisions associated with particular branches within the Subject Navigator.

HOW ISLG CONNECTS THE DOTS

ISLG's tools enable you to see how a particular decision or instrument has been considered by past tribunals.
